Exhibit F contains drawings of Project works that meet the definition of Critical Energy Infrastructure Information (CEII) pursuant to FERC's June 23, 2003 Order No. 630-A. As a result of security regulations enacted after September 11, 2001, project documents related to the design and safety of dams and appurtenant facilities, and that are necessary to protect national security and public safety ("Critical Energy Infrastructure Information" or "CEII"), are restricted from public distribution or viewing. Anyone seeking to view CEII must file a CEII request with FERC. FERC's website, at [www.ferc.gov/help/how-to/file-ceii.asp](http://www.ferc.gov/help/how-to/file-ceii.asp), contains additional details related to CEII.
