Please find attached two complete copies of the final Phase II “Excavation in the Dry” report for your records. This report documents all work conducted in support of the approved Phase II workplan in response to the PPL Martins Creek SES Ash Basin 4 release. The enclosed report includes all the information contained in the original draft plus additional information regarding site restoration, Portadam recovery efforts, and the extended turbidity monitoring program. Please replace the October 18th, 2005 draft of the Phase II report with this final version.
