

Effective June 14, 2021, PPL Corporation's Standards of Integrity (Standards) were updated primarily to remove references to the Western Power Distribution group of companies as a result of their sale by PPL on June 14, 2021. The revised Standards also reflect updates to PPL's Mission and Values and a clarification in the Human Rights section with respect to work-related matters, including that PPL recognizes and respects employees' freedom of association as well as the right to form or join a union, bargain collectively, or engage in union activities.
